

STICHTING **ALS** IRAN - Nederland

Why help is strongly needed!

“Increasing awareness about ALS disease and providing treatments and assistance services to ALS patients and their involved families in Iran”

- Connections with organizations and institutes in the Netherlands
- Connection with physicians and medical centers in Iran
- Representing the ALS patients and to meet their needs
- Establishing an information center about ALS disease in Iran
- Increasing the general knowledge about ALS in Iran
- *Establishing and operating financial resources and make the most of the raised funds for the costs involved in carrying out the tasks related to the above mentioned goals*

STICHTING **ALS** IRAN - Nederland

*I enjoy thinking about metaphysics
and I tune my being and soul to it.*

*I sense humanity's permanence and
eternity in this timeless and boundless
universe and will soon feel myself re-
posed in "God's" embrace. How and by
what mechanism is not important to
me. My belief is formed of such
unfathomable mysticism that brings
about my inner content.*

*Even more strongly put, I need what I
believe in, so it does exist. Belief is
made only of such spiritual desires.
It is a fully intimate conviction of
which each person has an individual
conception in their deeper consciousness.*

Ebrahim Al Eshag

From the article:

"Death often picks the fragrant ones"
