霍金先生寄语

- **My advice, is to concentrate on things your disability doesn't prevent you doing well, and don't regret the things it interferes with. Don't be disabled in spirit, as well as physically.**
- **However bad life may seem, there is always something you can do, and succeed at. While there's life, there is hope. My disability has not prevented me from having a full and satisfying life, and three Attractive children**
