

Assistive Technology Program for Israeli ALS Patients

Milan, December, 2013

Vision

No Israeli ALS
patient will
be left unheard

Need:

- No one takes responsibility
- Patients are own their own
- High costs

Program:

- 2 home/work visits:
 - evaluation
 - implementation
- Repeated at each stage of the disease

Team:

- 5 social workers
- 4 occupational therapists

Equipment:

- For demonstration
- Donation of the Karten
Charity-UK

So far:

100 visits per year

Plans for the future:

**Follow up visits by OT
students**

Thank you!
